ABOUT ME

Front-End Developer and Technical Lecturer with 2+ years of hands-on experience building responsive web applications and educating the next generation of developers. Proven track record managing large teams (60+ employees) with measurable performance gains. Skilled in JavaScript ecosystems (React, WordPress), agile workflows, and curriculum design. Pursuing a Physics degree to deepen expertise in data-driven development and mathematical modeling.

SKILLS

Languages & Frameworks: HTML, CSS, JavaScript (JS), Bootstrap, React, WordPress
Tools & Platforms: Git / GitHub, Jira, Godot, Scratch, Photoshop, Illustrator, MS Office, Excel (Certified)
Methodologies: Agile / Scrum, Sprint Planning, Performance Management, Curriculum Design

WORK EXPERIENCE

Team Manager • Evolution Georgia | Feb 2025 – Present

- Manage and supervise a team of 60+ employees across multiple live casino operations, ensuring consistent productivity and compliance.
- Improved KPI score from 80.6 to 92.5 through targeted coaching, performance tracking, and process optimization.
- Reduced operational incidents from an average of 76 to 10 per period by implementing quality control and monitoring procedures.
- Delivered onboarding, training, and up-skilling programs for 100+ employees across multiple game titles.
- Led performance review cycles and regular feedback sessions to drive continuous staff development.
- Applied Agile methodologies and Jira for sprint planning, task tracking, and reporting.

Lecturer / Mentor • Kepler Academy | Jun 2024 – Present

- Deliver lectures and technical presentations to 100+ students covering HTML, CSS, JavaScript, React, Scratch, and Godot.
- Design and develop full course curricula, syllabi, assignments, and assessments aligned with real-world industry standards.
- Mentor students through hands-on projects and practical exercises, bridging the gap between theory and professional practice.

Head of IT Department • Afiliate IGM | Jun 2024 – Jan 2025

- Led IT strategy and web development operations for the department, overseeing WordPress-based digital infrastructure.
- Developed and customized WordPress themes and plugins using HTML, CSS, and JavaScript to meet business requirements.
- Designed scalable content architectures using custom post types and taxonomies.
- Contributed to a 20–35% increase in user engagement through mobile-first, responsive design improvements.

WordPress Developer • WinWave | May 2024 – Jan 2025

- Built and customized responsive WordPress websites, contributing to a 20–35% uplift in user engagement metrics.
- Optimized website performance, caching, and SEO strategy, reducing average page load times by 30–50%.
- Architected scalable content structures using custom post types, taxonomies, and plugin extensions.

EDUCATION

B.Sc. Physics (In Progress) • University of Georgia | Jul 2025 – Present

- Pursuing physics to complement software development with strong foundations in mathematical modeling, data analysis, and scientific problem-solving — directly applicable to data-driven web applications.

B.Sc. Law • University of Georgia | Jul 2020 – Jul 2024

- Developed advanced analytical, research, and critical thinking skills through the study of legal principles, case law, and regulatory frameworks.
- Gained expertise in structured argumentation, legal writing, and interpreting complex documents — directly transferable to technical documentation and contract review.
